"Sukshma Asanas for Awakening Chakras"

The Mudras in themselves are a very effective technique for Chakra Awakening.

But, do you know that you can increase the effectiveness of these Mudras, manifolds?

Let me explain how...

Yogic philosophy puts a lot of emphasis on the concept of Action (karm) and Inaction (akarm).

These concepts have great philosophical as well as physical implications.

On a physical level, according to yoga, action followed by inaction gives greater and far more effective results.

'Action' acts as a *stimulant* and then 'Inaction' acts as a *re-enforcement*.

In this case,

Mudras represent inaction, and when you perform certain micro-exercises called as "Sukshma Asanas", which represent action, before practicing the Mudras, the effect and intensity of Mudras increase exponentially.

In simple terms; performing sukshma asanas before practicing the Mudras works wonders.

I have compiled 7 such sukshma asanas, one for each chakra, into a 7 day email course.

And, I am offering the online email course, for **FREE** to my readers only.

What are Mudras?

According to the Vedic culture of ancient India, our entire world is made of ‘the five elements’ called as *The Panch-Maha-Bhuta*’s. The five elements being **Earth, Water, Fire, Wind** and **Space/Vacuum**. They are also called the earth element, water element, fire element, wind element and space element.

These five elements constitute the human body – the nutrients from the soil (earth) are absorbed by the plants which we consume (thus we survive on the earth element), the blood flowing through own veins represents the water element, the body heat represents the fire element, the oxygen we inhale and the carbon dioxide we exhale represents the wind element and the sinuses we have in our nose and skull represent the space element.

As long as these five elements in our body are balanced and maintain appropriate levels we remain healthy. An imbalance of these elements in the human body leads to a deteriorated health and diseases.

Now understand this, the command and control center of all these five elements lies in our fingers. So literally, our health lies at our fingertips.

The Mudra healing method that I am going to teach you depends on our fingers.

To understand this, we should first know the finger-element relationship:

Thumb – Fire element.

Index finger – Wind element.

Middle finger – Space/Vacuum element.

Third finger – Earth element.

Small finger – Water element.

This image will give you a better understanding of the concept:

When the fingers are brought together in a specific pattern and are touched to each other, or slightly pressed against each other, the formation is called as a '*Mudra*'.

When the five fingers are touched and pressed in a peculiar way to form a Mudra, it affects the levels of the five elements in our body, thus balancing those elements and inducing good health.

P.S. The Mudra Healing Methods aren't just theory or wordplay; these are healing methods from the ancient Indian Vedic culture, proven and tested

over ages.

Important

Read this before you read any further

For the better understanding of the reader, detail images have been provided for every mudra along with the method to perform it.

Most of the Mudras given in this book are to be performed using both your hands, but the Mudras whose images show only one hand performing the Mudra, are to be performed simultaneously on both your hands for the Mudras to have the maximum effect.

What are Chakras?

- 7. The Crown Chakra
- 6. The Third Eye Chakra
- 5. The Throat Chakra
- 4. The Heart Chakra
- 3. The Solar Plexus Chakra
- 2. The Sacral Chakra
- 1. The Base/Root Chakra

I want to keep this book absolutely fluff free, so, I will not talk about how Chakras are the metaphysical entities that are essential for spiritual awakening and how they take you closer to The Divine One and keep you at peace. All I want to do is to make you understand that by awakening and balancing your Chakras you will achieve everlasting health, physically and emotionally and that this book is the best Medical Insurance you ever bought!

“Energy can neither be created nor can it be destroyed, it only changes from one form to another.”

The Human body needs energy to sustain life, this essential energy is obtained in two ways:

The Physical mode – The food we consume and the air we breathe cause a physical combustion of food and the assimilation of essential nutrients which provide us with the energy we need for survival.

The Meta-physical mode – The Omnipresent Universal Life energy is absorbed or channeled into our body.

This Universal Life energy enters the human body at Seven specific points, located on the spine, these points are THE CHAKRAS.

Simply put, The Seven Chakras are the inlet energy taps of the human body.

All these Chakras are associated with certain Glands and Vital Organs and the energy entering the Chakras is lead to them for proper functioning and nourishment.

If a Chakra is Closed, Blocked or Un-Balanced then these Vital Organs and Glands are malnourished leading to further complications and diseases. (Both on a physical and meta-physical level)

For example: If The Anaahat Chakra (The Heart Chakra) is blocked or unbalanced then the person is prone to cardiovascular disorders and also to emotional instability.

A person whose Chakras are awakened and in a balanced state will be in the best of his health. Also, a consistent harmony between the Chakras will induce a feeling of prosperity, well being and satisfaction. Such a person can only look forward to spiritual awakening and eternal bliss.

Now, let's get down to business, and awaken & balance your Chakras.

Forming a Routine

Every Mudra that I have mentioned in this book has to be performed for at least five minutes for best results.

But, to perform all the 19 Mudras for at least 5 minutes will eat up a little over 1 and a 1/2 hrs of your time every day and many of you might not be able to take off that much time every day from your busy schedules and chores.

Understand that **it is NOT a hard and fast rule that you should perform all these 19 Mudras back to back in one session.**

What I would suggest is, perform any one (1) Mudra pertaining to each of the seven Chakras daily. Thus, you'll have to take out only a minimum of 35 minutes every day.

(Make sure that you perform all the 19 Mudras at least thrice in a week.)

The beauty of Mudra Health and Healing Techniques is that Mudras can be performed at any time and place: while stuck in traffic, at the office, watching TV, or whenever you have to twiddle your thumbs waiting for something or someone.

So, please don't come up with any excuses to avoid them, Mudras are as Easy and Effortless as Chakra Awakening and Balancing could get.

"Sukshma Asanas for Awakening Chakras"

The Mudras in themselves are a very effective technique for Chakra Awakening.

But, do you know that you can increase the effectiveness of these Mudras, manifolds?

Let me explain how...

Yogic philosophy puts a lot of emphasis on the concept of Action (karm) and Inaction (akarm).

These concepts have great philosophical as well as physical implications.

On a physical level, according to yoga, action followed by inaction gives greater and far more effective results.

'Action' acts as a *stimulant* and then 'Inaction' acts as a *re-enforcement*.

In this case,

Mudras represent inaction, and when you perform certain micro-exercises called as "Sukshma Asanas", which represent action, before practicing the Mudras, the effect and intensity of Mudras increase exponentially.

In simple terms; performing sukshma asanas before practicing the Mudras works wonders.

I have compiled 7 such sukshma asanas, one for each chakra, into a 7 day email course.

And, I am offering the online email course, for **FREE** to my readers only.
